ANUSHKA SHARMA
23-12-2022

Education

Bachelors Of Technology in CSE

SRM Institute of Science and Technology, Chennai

Aug 2023 – May 2027

- CGPA: 9.80/10

Experience

Vikram Sarabhai Space Centre (VSSC), ISRO — Intern

02/12/2025 – 05/01/2026

Thiruvananthapuram, India

- Developed static program analysis tools for Python, C/C++, and Ada to detect unreachable code, uninitialized variables, division-by-zero risks, and code complexity issues.
- Implemented AST-based and rule-based analysis techniques to automate software quality assessment and generate structured diagnostic reports.
- Designed automated test case generation and coverage analysis workflows to support software verification and improve testing efficiency.

YSS Foundation - Data Analyst Intern

02/06/2025 - 24/06/2025

Noida, India

- Developed interactive dashboards and visual reports to analyze digital engagement and organizational performance metrics.
- Processed and analyzed datasets using Python and Power BI to generate actionable insights for stakeholders.
- Created visualizations and KPI tracking systems to support data-driven decision-making processes.

Projects

KALYX – Multi-Agent Curriculum Intelligence Platform

- Developed an AI-powered curriculum intelligence platform using LangGraph and Gemini 2.5 Flash to transform syllabus documents into lesson plans, slide decks, instructor notes, quizzes, and assessments.
- Designed an agent-driven workflow for curriculum analysis, learning outcome extraction, content generation, and educational resource generation.
- Automated export of generated content into structured PPT, PDF, and quiz formats, reducing manual curriculum preparation effort and improving content consistency.

Campaign Copilot – AI-Powered CRM & Marketing Intelligence Platform

- Built an AI-driven CRM platform enabling audience discovery, campaign generation, performance prediction, and customer engagement analytics using Streamlit, FastAPI, SQLite, and Gemini APIs.
- Developed intelligent agents for audience segmentation, campaign strategy generation, personalized messaging, and campaign performance estimation using customer behavioral data.
- Implemented analytics dashboards and automated reporting workflows to provide actionable insights on customer engagement, campaign reach, and business performance.

Customer Churn Prediction

- Developed a machine learning pipeline to predict customer churn using behavioral and transactional data, performing data preprocessing, feature engineering, and model evaluation.
- Applied Random Forest and Logistic Regression models alongside exploratory data analysis to identify key churn drivers and improve customer retention insights.

- Built interactive Power BI dashboards to visualize churn trends, customer segments, and business KPIs for data-driven decision making.

Skills

Programming Languages: Python, C/C++, SQL

Data Structures & Algorithms: Arrays, Strings, Hashing, Linked Lists, Recursion, Complexity Analysis, Problem Solving

Machine Learning & AI: Scikit-learn, NLP, TF-IDF, Recommendation Systems, Classification, Feature Engineering, LLM Applications

Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Power BI

Databases: MySQL, MongoDB

Frameworks & Tools: Git, GitHub, FastAPI, Streamlit, Jupyter Notebook

Core Computer Science: Object-Oriented Programming, DBMS, Operating Systems, Software Testing

Leadership & Activities

Producting101 Hackathon — Team Lead

- Led ideation, task allocation, and presentation strategy, helping the team secure a Top 10 position.

Scrum Master — AI-Based Finance Tracker Project

- Coordinated sprint planning, backlog prioritization, and team collaboration in an Agile project environment.

Achievements

Naukri Campus

11/10/2024

Noida, India

- Secured **96.92 percentile** in India's largest skill-based coding contest.
- Evaluated on data structures, algorithms, and programming problem-solving.

Certifications

- Certified System Administrator (CSA)
- Certified Application Developer (CAD)
- Introduction to Machine Learning
- Introduction to Business Analysis
